

DelicaSea™

EASY PEEL SHELL-ON BLACK TIGER UNCOOKED Shrimp

DelicaSea® Easy Peel, Shell-On Black Tiger Shrimp are processed from farm raised shrimp that have been grown in pristine waters under carefully monitored and environmentally sustainable conditions. Black Tiger shrimp (*penaeus monodon*) is one of the major aquaculture shrimp species in Asia. Its dark pigmentation produces a reddish color when cooked and is prized by chefs worldwide for its visual attractiveness and for its medium firm texture and sweet mild flavor.

DelicaSea® Easy Peel, Shell-On Black Tiger Shrimp have been split down the back, and the vein has been removed, leaving the shell on the shrimp. The versatility of Easy Peel Shrimp allows the product to be served in the shell or with the shell removed. It is ready to use in a broad range of menu preparations from appetizers to main entrées.
